

Drawing your kitchen is easy!

Just capture all the primary dimensions!
Don't worry, we don't use these numbers to make your countertops... they are for estimating only.

Just imagine where you want the stone to be and give us the dimensions.

The drawing does not need to be crazy precise. We will digitally measure your project prior to make the countertops.

When you come into our showroom it helps if you bring some pictures of your project. That will help us get a better feel of the space and identify if there are any unusual

circumstances to be aware of. It is not required... but it is helpful.

The easiest way to send in the sketch is to take a digital picture of the sketch and email it to us at sales@rockyourhome.com

You can fax the drawing to 760-597-1800.

If you have any questions of how to do the sketch please call us at 760-597-1800

Please feel free to use the form that follows as a guide for providing the sketch.

We are here to help!

Project Specifications:

Please check the items below that apply to your project.

- | | | | |
|-------------------------|--------------------------|---------------------------------------|--------------------------|
| Topmount sink cut-out | <input type="checkbox"/> | Granite back splash | <input type="checkbox"/> |
| Undermount sink cut-out | <input type="checkbox"/> | Tile back splash | <input type="checkbox"/> |
| Cooktop cut-out | <input type="checkbox"/> | Removal of existing tile counters | <input type="checkbox"/> |
| Slide-in range | <input type="checkbox"/> | Removal of existing non tile counters | <input type="checkbox"/> |

Hand Sketch:

Please provide us with a simple hand sketch of your counter area.

Show location of appliances (sink, cooktop, range, fridge).

Mark edges that require finishing with an "X".

Standard kitchen cabinets are 24" front to back. With a 1.5" overhang the standard counter width is 25.5"
